Asian VOICE

The Voice of British Asians

BRITISH ASIANS - Key Demographics and Distribution

South Asians make up just over 3.5% of the total UK population - about 2,084,000 out of nearly 58,800,000. Of these nearly 1.8% are Indian - 1,054,000 and 1.25% are Pakistani - 747,000. Just under 0.5% are Bangladeshi - 283,000

Over 96% of all Asians in the UK live in England itself - over 2 million. Over 43% live in London and the South-East alone. Outside London, the single region with the most Asians is the West Midlands (365,000)

The 2001 census revealed that the age profile in most Asian communities is much younger than the profile for the country as a whole. This means that the community will grow in size, both proportionately and absolutely, over the next 10-15 years.

In 2003 the Department for Education and Skills reported that currently 12.5 per cent (one in eight) of all pupils in English schools are black or Asian. The Department expects the proportion to rise to 20 per cent (one in five) by 2010.

9.1% of Asians are in higher managerial and professional occupations compared with the national average of 7.7%.

Overall the industry groups which employ the largest proportion of people are Wholesale and Retail trade (14%). Over 45% of high street pharmacies and CTN stores are owned by Asians.

Britain's Leading Asian news weekly

Established in 1972.

Asian Business Publications Ltd. (ABPL Group), publish Asian Voice (English) and Gujarat Samachar (Gujarati), premier news weeklies for British Asians – one of the UK's most progressive and enterprising ethnic groups. The combination of two highly influential national news weeklies together with a portfolio of informative and vibrant theme based special issues covering key topics such as Health, Property, Finance, Banking, Insurance, Education, Diwali, Travel & Tourism, gives us the leading edge within the UK's ethnic press.

The key to our success has been our abiding and uncompromising commitment to the interest of our readers. Over the three decades we've learned an immense amount about their likes and dislikes, their changing lifestyles, their interests and their priorities. Equipped with this invaluable insight we offer the latest news with in-depth reports and analysis on issues of particular importance to British Asians.

Our readers have a unique relationship with our titles and they expect a depth of coverage, a level of insight, that they simply won't get elsewhere, despite the recent entry of other ethnic titles, media websites, television channels and pages devoted in the national press. We have not compromised on the crucial elements that our readers expect from us; therefore we continue to be the most informative; our columns the most definitive; our analysis the most incisive; and our comment the most thought provoking.

Besides, we champion the cause of our readers, report on their successes and their failings, understand their concerns and influence their thinking. We have always covered the diverse interests of the Asian community with the depth and insight they deserve and for that reason we've designed Asian Voice and Gujarat Samachar along the lines of a serious quality newspaper.

Every issue brings together news and developments, both national and international, from the world of politics, business, finance, social & community issues, sport, fashion and Bollywood.

OUR VISION

Our vision is that we will continue to inform, inspire, entertain, and enlighten the community. We will safeguard the trust that our readers have invested in us and consolidate our reputation as a source for reliable, independent and above all, enjoyable reading material.
